A private guided tour:
THE HÔTEL DIEU

Come and discover this beautiful historic building in Lyon. The Hôtel-Dieu, one of Lyon's oldest hospitals, has now been renovated and forms an integral part of the city's history.

For centuries, right up until 2009, the Hôtel-Dieu treated millions of people, notably under the leadership of François Rabelais, who helped bring an end to the plague epidemics that were ravaging Lyon during the Renaissance. Since its renovation was completed in 2018, the Hôtel-Dieu has been home to numerous shops, restaurants, offices and a hotel, all contributing to the appeal of the Presqu'île.

During this tour, you will have the opportunity to admire the architecture that has stood generations and is now a source of pride for the people of Lyon, as many were even born there!
